DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2, 4, 5, 7-11, 13, 14, 16, and 17 are rejected under 35 U.S.C. 102(e) as being anticipated by Chappell (2002/0042306). Chappelle discloses a golf club comprising a plurality of grooves. Figure 6 of Chappelle illustrates each groove comprising two symmetrical walls with respect to a center axis and a u-shpaed bottom. Each wall further comprises a step creating first and second wall portions on either side. The angle between the top first wall and the center axis is larger than the angle between the second wall portion and the center portion and the center axis. Note: the first wall portions are items 68 and 66 in figure 6 and the second wall portions are items 21 and 17.

Allowable Subject Matter

Claims 6 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
